WHEREAS, CzechGlobe is a leading world scientific workplace
in the development of procedures for measuring CO₂ fluxes.

WHEREAS, CzechGlobe supports efforts to save tropical virgin forests in the Congo Basin in
Africa.

WHEREAS, the World's Green Lungs z.s. is on time engaged in tropical virgin forest
preservation, and reforestation of previously devastated areas in the Congo Basin
and in combat against hunger, disease, and poverty there.

WHEREAS, the World's Green Lungs z.s. manages large areas in the Congo Basin suitable
for the realization of this huge project of tropical forest saving.

THEREFORE, THE PARTIES HEREBY AGREE AS FOLLOWS:

To collaborate within the frame of the AgroForestry pilot project in the Congo Basin.

CzechGlobe, with its expertise, will provide consultancy in the CO₂ fluxes assessment in the
Congo Basin.

1. In particular CzechGlobe will contribute to the development and/or endorsement of:
 - Methodology for assessment of tropical forest carbon offsets in line with recognized International standards.
 - Carbon inventory and monitoring procedures for the selected project territories.
 - Carbon monitoring certification standard.
 - Verification mechanism of Ecosystem services.
2. Providing a cycle of presentations at the university level focused on Climate-related Agroforestry issues applied to local project conditions.
 - Local expert capacity building and International know-how transfer.

The World's Green Lungs z.s. will provide the know-how, experts, machines, and equipment to
local countries.

IN WITNESS WHEREOF, the parties have agreed this Agreement to be executed by their duly
authorized representatives.
